REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the citizens of Warren:

Pupil enrollment in your schools is as follows:

Grade	1	2	3	4	5	6	7	8	Total
	6	12	10	13	14	8	7	7	77

Average cost per pupil last year was \$264.17 compared to a state average of \$253.41.

This year you have twenty six pupils attending high school at a total cost to the town of \$8,800.00. This is an average cost per pupil of \$340.00 compared to a state average of \$414.37.

The following is a comparison of your per pupil costs for the last five years.

	Elementary	High School
1955	\$ 213.69	\$ 218.52
1956	219.14	226.29
1957	207.24	260.00
1958	236.01	247.45
1959	264.17	325.00

The following is a comparison of your financial position as of July 1st for each of the last five years.

	Surplus	Deficit
1955	\$ 557.71	
1956	1,063.71	
1957	205.90	
1958		\$ 361.66
1959	942.82	

Plans for next year

1. We plan to install a fire detector system in the Village School as recommended by the State Fire Marshal.
2. We plan to paint the outside of the Village School and one classroom.
3. We can get by next year with \$ 19,220.00 in taxes which when based upon our present grand list would mean the same tax rate as last year — \$4.10. If the grand list goes up however, there is no need to have as high a tax rate. If you people prefer, we recommend that a sum of money not to exceed \$19,220.00 be raised for school taxes and that the selectmen apply a tax on the grand list next July to raise that amount.

Respectfully submitted,

WALLACE A. MARTIN,
Superintendent of Schools

HEALTH REPORT

In submitting my report I am pleased with the cooperation I receive from some parents who report their communicable diseases as these all have to be reported to the State. I am also submitting the report of our State Health Com. of the work done by the Staff of the State Health Dept.

The health of our town is the concern of its doctors, health officer, selectmen and the State Dept. of Health. Through its various programs the State Dept. of Health, works with the local people on community health operating on both local and state levels.

This is a report of the State Health Dept. Services your town used.

ANNUAL REPORT

OF THE TOWN OFFICERS

WARREN

VERMONT

For the Year 1960

Sugarbush Valley, Warren's world-famous summer and ski resort area, has completed its second year of operation, its third summer of construction. A new double chairlift was added, the Valley House was expanded and three new trails were cut into the existing network. Also new in the Valley this year are Marcelle's Restaurant, Troll Corner Shop, Windbeam, Hendrickson's Chalet, Christmas Tree and Berghof lodges.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the citizens of Warren:

Pupil enrollment in your schools is as follows:

Grade	1	2	3	4	5	6	7	8	Total
	14	6	9	10	14	12	8	8	81

Average cost per pupil last year was \$304.59.

This year you have twenty eight pupils attending high schools in Brandon, Northfield, and Waitsfield at a total cost to the town of \$10,775.00.

The following is a comparison of your per pupil costs for the past five years.

	Elementary	High School
1956	\$ 219.14	\$ 226.29
1957	217.24	260.00
1958	236.01	247.45
1959	264.17	325.00
1960	304.59	368.17

The following is a comparison of your financial position as of July 1st for each of the last five years.

	Surplus	Deficit
1956	\$ 1,063.71	
1957	205.90	
1958		\$ 361.66
1959	942.82	
1960	2,363.68	

Plans for next year

1. We plan to do the following repairs at the village; install a fire detector system, lay a new tile floor in the intermediate room, install thermostat controls in each room.
2. We plan to do the following repairs at East Warren; install an oil burner, shingle the woodshed roof.
3. We feel that we can run the school next year on a tax rate of \$3.00.

Respectfully submitted,

WALLACE MARTIN,
Supt. of Schools

AUDITORS' REPORT

In accordance with Section 3593 V. S. as amended, we have verified the existence of stated Cash balances, inspected all securities, examined the accounts and records of town officers, and to the best of our knowledge the preceding financial statements and reports of receipts and disbursements presents the financial position of the town on December 31, 1960, and an accurate record of funds handled in the year then ended.

MURIEL J. GRIFFIN,
EVELYN M. McCUIN,
HARRIET L. CULVER,
Auditors

WARREN VOLUNTEER FIRE DEPT.

The following is an account of our expenditures from April 1960 to January 1961. These were paid from our treasury and excede our income this year by \$90.00.

New portable pump	\$ 562.75
Rebuilding old pump	275.90
6 tires & tubes, for Ford truck	210.70
Gas masks	78.75
Curtis, extinguishers	416.02
David Dean, pressured water extinguishers	65.52
Truck mirrors	18.50
Manifold for Ford truck	17.80
Grange, use of piano	45.00
Hap's Service Station	14.00
Tuning piano	25.00
Vt. State Firefighters Association	24.25
Miscellanous, items under \$10.00	323.42
Total	\$ 2,077.61

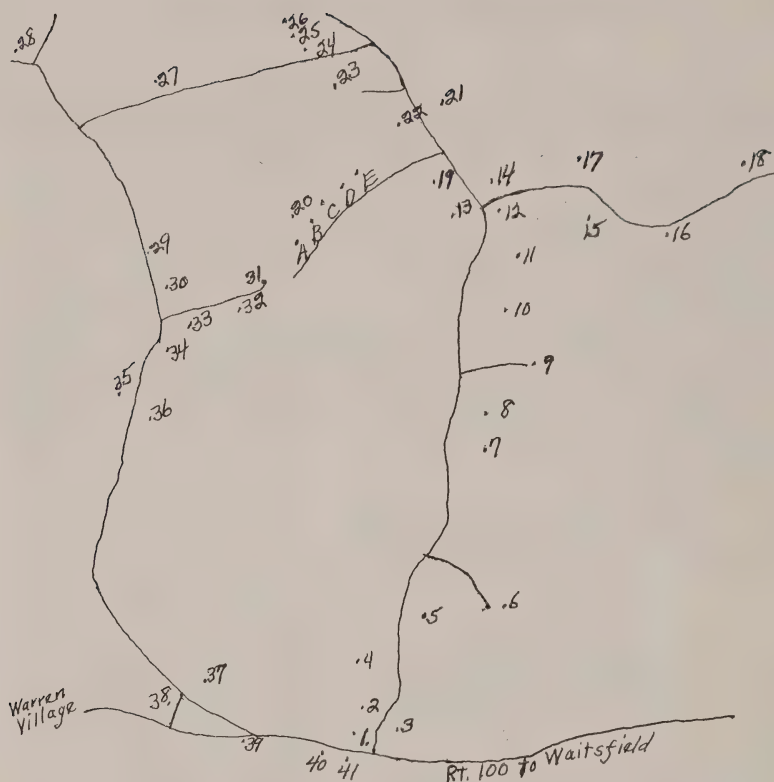

In the ensuing year we would appreciate the co-operation of the farmers and persons living in the outlying areas. It is essential in the protection of your buildings to have available ponds or water holes near by. Although we have 300 gallons of water on our truck, this is only a 2 minute supply; however, with a pond near by and one of our portable pumps we could have water in no time. All the equipment that we now have would not help a bit without water to go with it.

We are seriously considering buying a tank truck which will give us another 800 gallons of water to start with. As everyone knows - - the first 15 - 20 minutes usually makes the difference between a building and a cellar hole.

If anyone wants or needs any help in laying out a pond or damming a brook for fire protection, we will gladly give you all the assistance we can, for it will make our job that much easier.

VERMONT DEPARTMENT OF SOCIAL WELFARE

Montpelier, Vermont

This is the twenty-sixth annual report which has been made to the citizens of Warren regarding State payments on behalf of persons who applied from your municipality for the various types of assistance and welfare during 1961. We intend to set up a system of records for the next calendar year which will permit us to report in detail the town or city's participation in the operation of the Federal and/or State assistance programs.

The support and cooperation of town officers and people generally over this period is gratefully acknowledged.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the citizens of Warren:

I think that your pupils are making good progress this year under the capable direction of Mrs. McCuin, Mrs. Senior, and Mrs. Streit at the Village School and Mrs. Taylor at East Warren.

Pupil enrollment in the Warren Schools is as follows:

Grade	1	2	3	4	5	6	7	8	Total
	10	16	8	8	12	13	12	7	86

Average cost per pupil last year was \$259.99.

This year we have twenty-nine pupils attending high schools in Brandon, Burlington, Montpelier, Northfield, and Waitsfield at a total cost to the town of \$11,975.00.

The following is a comparison of our per pupil costs for the past five years.

	Elementary	High School
1957	\$ 217.24	\$ 260.00
1958	236.01	247.45
1959	264.17	325.00
1960	304.59	368.17
1961	259.99	383.66

A comparison of our financial position as of July 1st for each of the past five years follows.

	Surplus	Deficit
1957	\$ 205.90	\$
1958		316.66
1959	942.82	
1960	2,363.68	
1961	2,357.63	

Plans for Next Year

1. Under Administration, we have budgeted \$150.00 for school board salaries.
2. We plan to install thermostatic controls and paint one room at the village school, and to do other minor repairs at both schools as they become necessary.
3. We feel that we can run the schools next year on a tax rate of \$2.75.

Respectfully submitted,

WALLACE A. MARTIN,
Supt. of Schools

AUDITOR'S REPORT

In accordance with Section 3593 V. S. as amended, we have verified the existence of stated Cash balances, inspected all securities, examined the accounts and records of town officers, and to the best of our knowledge the preceding financial statements and reports of receipts and disbursements presents the financial position of the town on December 31, 1961, and an accurate record of funds handled in the year then ended.

We certainly appreciate the manner in which all the reports were submitted this year for audit. They were in on time and in good order, which needless to say was a big help in making this audit go as quickly and smoothly as it did.

Our sincere thanks to all concerned.

JANET F. COTA,
CLARENCE GALLAGHER,
GLADYS M. BISSELL,
Auditors

WARREN VOLUNTEER FIRE DEPT.

The following is an account of our expenditures from January 1, 1961 to January 1, 1962.

Hap's Service Station	\$ 14.10
Bonnett's Garage	44.63
David Deane, fire equipment	220.20
Bisbee & Bisbee	42.93
F. C. Luce Co., Inc.	65.00
Allen Lumber Co.	93.92

Strong Hardware Company	36.00
Miscellaneous items under \$10.00	353.86
 Total	 \$ 4,138.87
Town's share for truck	800.00
 Firemen	 \$ 3,338.87

These were paid from our treasury. We did not figure our income out this year, but we know we have spent quite a bit more than we took in.

Number of calls for 1961	12
Out of town calls	0

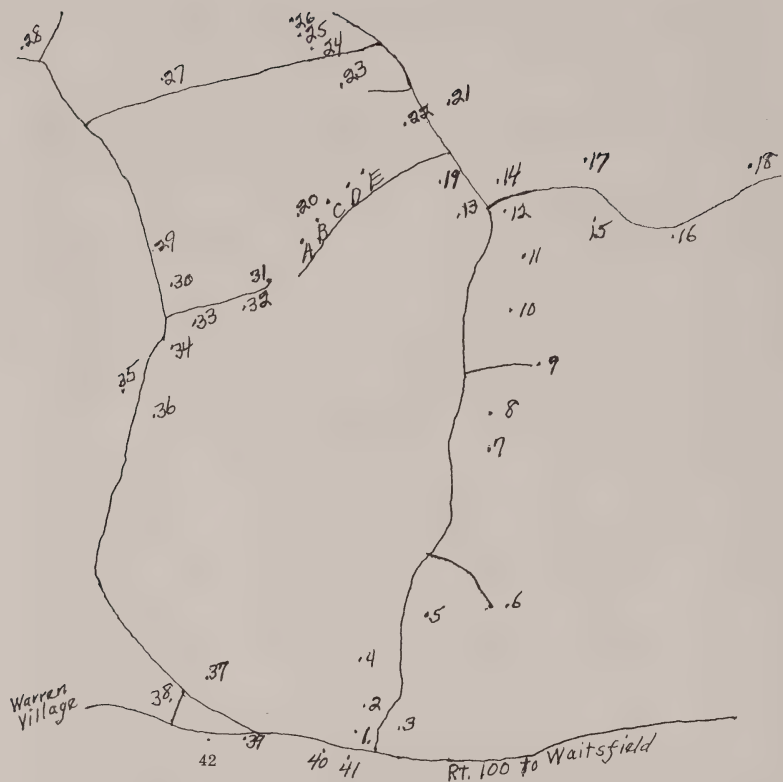

As you all know we have a new telephone system with no operator in Waitsfield to help us with calls that come over the phone. So, if you will remember this:

When you ring the Fire Number 3661 be as calm as possible — tell whomever answers

1. Where the fire is.
2. Whether barn, house or chimney.

We are well pleased with our tank truck, it has been out twice to fires and we feel that it has paid for itself already.

Chief

VERMONT DEPARTMENT OF SOCIAL WELFARE
Montpelier, Vermont

This twenty-seventh in the series of annual reports submitted to the people of Warren presents tabulations for the calendar year 1962. In the Department of Social Welfare's programs of assistance to the aged, blind and disabled 30% of the costs of hospital and physician services, as well as the excess over \$75.00 per month in Nursing Home Care, are assessed against the town of settlement of the recipients of such care. Participation charges incurred by your community during the past year for each of these types of care were as follows:

Nursing Home Care	\$ 270.00
Hospitalization Services	78.34
Physician Services	11.70

Under similar settlement provisions town participation in the program of Aid to Families with Dependent Children is at the rate of one-eighth the assistance grants while costs incurred for the care of Committed Children are borne equally by the local and state agencies. Charges assessed against your community for the latter amounted to \$867.84 for the year just closed.

During April, 1962 there were 5 recipients of Old Age Assistance and 1 recipient of Aid to the Permanently and Totally Disabled residing in your community. Direct money payments to these person were financed entirely out of State-Federal funds. Among the other programs financed from these same sources were Services for the Blind, Adoption Services and the recently inaugurated Medical Aid for the Aged. While no town-by-town records are compiled for these categories, their benefits were available to all qualified residents.

Respectfully submitted,

JOHN J. WACKERMAN,
Commissioner of Social Welfare

These amounts totaling \$5,559.98 in taxes do not include warrant-fees, interest, rent on leased land or penalties.

* Paid in full before going to printer.

The above list of delinquent tax payers with the amounts due is as accurate as your collector can devise. You will note a difference of \$3.19 between this total and the "Outstanding" tax figure in my report. This list is made from the collector's work sheets and covers a period of several years. To find the error would require more time than the amount warrants. I would recommend that the above figure be accepted as a true amount of "Outstanding Taxes" to start the 1963 report.

Tax Collector

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the citizens of Warren:

I think that your pupils are making good progress this year under the direction of a good staff of teachers. Pupils in Warren average out at slightly ahead of grade level on achievement tests used all over the nation.

Pupil enrollment in the Warren Schools is as follows:

Grade	1	2	3	4	5	6	7	8	Total
	8	10	15	7	7	12	13	11	83

Cost per pupil last year was \$346.06.

This year we have twenty-five pupils attending high schools in Waitsfield, Northfield and Montpelier at a total cost to the town of \$11,460.00.

The following is a comparison of our per pupil costs for the past five years:

	Elementary	High School
1958	\$236.01	\$247.45
1959	264.17	325.00
1960	304.59	368.17
1961	259.99	383.66
1962	346.06	424.89

A comparison of our financial position for each of the past five years follows:

	Surplus	Deficit
1958	\$	\$ 316.66
1959	942.82	
1960	2,363.68	
1961	2,357.63	
1962	1,233.73	

Plans For Next Year

1. Under Lights-Utilities we have budgeted for the telephones in our schools.
2. We plan to do some necessary minor repairs and paint the East Warren School.
3. We feel that we can run the schools next year on a tax rate of \$2.70.

Respectfully submitted,

WALLACE MARTIN,
Supt. of Schools

AUDITOR'S REPORT

In accordance with Section 3593 V. S. as amended, we have verified the existence of stated Cash balances, inspected all securities, examined the accounts and records of town officers, and to the best of our knowledge the preceding financial statements and reports of receipts and disbursements presents the financial position of the town on December 31, 1962, and an accurate record of funds handled in the year then ended.

The reports were submitted in good order again this year and everyone was very cooperative.

SCHOOL LUNCH PROGRAM

The School Lunch Program is sponsored by the Village P.T.A. From October 8 to February 1 approximately 3,500 Type A lunches have been served at the low, low price of 20¢ per lunch.

The cook, Catherine Varney, uses as many U. S. surplus commodities as are available. The proceeds from the Deer Hunters Supper and a turkey raffle helped to defray the expense of the program. So far, the expenses have been about \$950.00.

Attendance at the meetings is very low. Come on, Parents, show more interest and better cooperation. Please attend the meetings.

VERMONT DEPARTMENT OF SOCIAL WELFARE Montpelier, Vermont

This twenty-eight in the series of annual reports submitted to the people of Warren presents tabulations for the calendar year 1963. In the Department of Social Welfare's program of assistance to the aged, blind or disabled 30% of the costs of hospital and physician services, as well as the excess over \$80.00 per month in Nursing Home care, are assessed against the town of settlement of the recipients of such care. Participation charges incurred by your community during the past year for each of these types of care were as follows:

Nursing Home Care	\$ 277.50
Physician Services	12.00

Under similar settlement provisions town participation in the program of Aid to Families with Dependent Children is at the rate of one-eighth the assistance grants while costs incurred for the care of Committed Children are borne equally by the local and state agencies. Charges assessed against your community for the latter amounted to \$1,108.00 for the year just closed.

During 1963 assistance was granted to 5 residents in your community under the Aid to the Aged, Blind or Disabled program. Direct money payments to these persons were financed entirely out of state-federal funds. Among the other programs financed from these same sources were

Services for the Blind, Adoption Services and Medical Aid for the Aged. While no Town-by-Town records are compiled for these categories, their benefits were available to all qualified residents.

Respectfully submitted,
JOHN J. WACKERMAN,
Commissioner of Social Welfare

VERMONT STATE DEPARTMENT OF HEALTH
Annual Town Report — 1963

I am submitting my report of the Town of Warren as prepared by the Vermont Health Department.

State Health Department suggests the following precautions against rabies:

1. Vaccinate your dog or dogs against rabies. (now necessary for licensing.)
2. Reduce the fox and skunk population as they are vectors.
3. Dispose of refuse and garbage properly so that it will not attract stray animals.
4. Board up openings under buildings which give refuge to foxes and skunks.

To the Citizens of Warren:

I feel that your pupils are making good progress this year under the capable direction of our teachers. On the Metropolitan Reading Test, Warren pupils averaged out slightly above grade level.

Pupil enrollment is as follows:

Grade	1	2	3	4	5	6	7	8	Total
	4	9	9	15	8	5	12	10	72

Cost per pupil last year was \$288.70.

This year we have thirty-three pupils attending various high schools in the state at a total cost to the town of about \$14,500.00.

The following is a comparison of our pupil costs for the past five years.

	Elementary	High School
1959	\$264.17	\$325.00
1960	304.59	368.17
1961	259.99	383.66
1962	346.06	424.89
1963	288.70	453.00

A comparison of our financial position for each of the past five years follows:

1959	\$	942.82
1960		2,363.68
1961		2,357.63
1962		1,233.73
1963		3,995.85

Plans For Next Year

1. We are doing our best to coordinate our progress with that of Waitsfield so that our students will be prepared in the same areas when they attend high school. With this in mind, we plan to purchase new arithmetic books and more reference material.
2. For repairs, we plan to do some outside and inside painting.
3. When we look at the Warren School buildings and the Sugarbush buildings, we can wonder if we are talking about the same town. I feel that the entire valley probably should seek a common solution to its school problems even at the elementary level. Our present buildings are old and shabby. They cannot be fixed so that they will look much better. I feel that our only chance to have an improved elementary curriculum lies in a joint building effort on the part of Fayston, Waitsfield and Warren.

We recommend a school tax of \$2.35 for the 1964-65 school year.

Respectfully submitted,

WALLACE A. MARTIN,
Superintendent of Schools

AUDITOR'S REPORT

In accordance with Section 3593 V. S. as amended, we have verified the existence of stated Cash balances, inspected all securities, examined the accounts and records of town officers and to the best of our knowledge the preceding financial statements and reports of receipts and disbursements presents the financial position of the town on December 31, 1963, and an accurate record of funds handled in the year then ended.

The reports submitted, were in good order this year and everyone was very cooperative.

VERMONT DEPARTMENT OF SOCIAL WELFARE

Montpelier, Vermont

This twenty-eighth in the series of annual reports submitted to the people of Warren presents tabulations for the calendar year 1964. In the Department of Social Welfare's program of assistance to the aged, blind or disabled 30% of the cost of hospital and physician services, as well as the excess over \$80.00 per month in Nursing Home care, are assessed against the town of settlement of the recipients of such care. Participation charges incurred by your community during the past year for each of these types of care were as follows:

Nursing Home Care	\$ 367.18
Physician Services	17.10

Under similar settlement provisions town participation in the program of Aid to Families with Dependent Children is at the rate of one-eighth the assistance grants while costs incurred for the care of Committed Children are borne equally by the local and state agencies. Charges assessed against your community for the former amounted to \$72.54 and for the latter \$1,073.00 for the year just closed.

During 1964 assistance was granted to 10 residents in your community under the Aid to the Aged, Blind or Disabled program. Direct money payments to these persons were financed entirely out of state-federal funds. Among the other programs financed from these same sources were Services for the Blind, Adoption Services and Medical Aid for the Aged. While no town-by-town records are compiled for these categories, their benefits were available to all qualified residents.

Respectfully submitted,

JOHN J. WACKERMAN,
Commissioner of Social Welfare

VERMONT STATE DEPARTMENT OF HEALTH

Annual Town Report — 1964

During the year we sent letters to many of the people of the town of Warren concerning the immunization status of their children. I would like to thank them for their very fine response to this inquiry. You will be interested in learning that in Vermont 4 out of every 5 babies have been started on their shots for diphtheria, whooping-cough, tetanus and polio by 6 months of age.

This is a testament to the genuine concern which Vermonters have for the health of their children, their neighbors and their communities; something in which every Vermonter can take pride.

The following is a tabulation of some of the more important health services provided people of your town in the fiscal year 1964.

Attendance at well child clinics	98
Nutrition, dietary consultations to institutions, groups, individuals	—
Pediatric consultations for child health problems	—
Number of children given diagnostic service at hospitals	—
Number of children aided at handicapped children's clinics for speech and hearing, orthopedic, plastic, neurological, cardiac problems	3
Number of children financially aided with hospitalization	—
Number of children served by mental retardation clinics	—
People X-rayed for tuberculosis detection	4
Diphtheria, Tetanus, Whooping-cough immunizations ..	28
Polio immunizations (Salk injection or Sabin oral) at clinics	181
Number of water samples tested (private and public supplies)	31
Food and dairy products tested	—
Blood specimens (pre-marital, pre-natal and other)	22
Other laboratory specimens	3
Sanitary inspections, consultations (food and lodging, camps)	116

Water, sewage disposal, public building and other inspections	41
People X-rayed for occupational diseases	—
Hospital and nursing home inspections and consultations	—
Dental health education, number of children served in schools	60
Number served by tumor clinics	—
Public Health Nurse home visits	78
Number served by Public Health Nurse visits	22

Respectfully submitted,

R. B. AIKEN, M. D., M. P. H.,

Commissioner of Health

Inspection for pediculosis on complaint but found none.

RUTH A. BROOKS,
Treasurer

To the Citizens of Warren:

I feel that your pupils are making excellent progress under the fine direction of Mrs. Senor, Mrs. Streit, Mrs. McCuin, and Mrs. Taylor. Their devotion to the needs of the young people of Warren and their hard working efforts to teach them make these four people in my mind outstanding examples of their profession.

Pupil enrollment is as follows:

Grade	1	2	3	4	5	6	7	8	Total
	16	5	10	8	14	9	8	8	78

Last year we had seventy-two pupils in our school. Cost per pupil last year was \$352.93 compared to a state average of \$319.

This year we have twenty-three pupils attending various high schools in the state at a total cost to the town of about \$12,000.00.

The following is a comparison of our cost per pupil for the past five years.

	Elementary	High School
1960	\$304.59	\$368.17
1961	259.99	383.66
1962	346.06	424.89
1963	288.70	453.00
1964	352.93	462.01

Our financial position as of July 1st for the past five years follows:

	Surplus
1960	\$ 2,363.68
1961	2,357.63
1962	1,233.73
1963	3,995.85
1964	3,535.73

Plans For Next Year

We plan to coordinate our program very closely with that of Waterbury and Waitsfield so that when our grade seven through twelve pupils attend the proposed new building they will be prepared in the same fashion as pupils from other towns.

Our present buildings are very shoddy. In the near future, I feel that Warren should consider building a new Elementary School either by themselves or in cooperation with other towns.

We plan to run the same schools next year that we are running now.

We feel that we can run the schools on a sum of money not to exceed \$29,600.00 or a tax rate of \$2.00 based on a Grand List of \$15,000.00.

Respectfully submitted,

WALLACE MARTIN,
Superintendent of Schools

AUDITOR'S REPORT

In accordance with Section 3593 V. S. as amended, we have verified the existence of stated Cash balances, inspected all securities, examined the accounts and records of town officers and to the best of our knowledge the preceding financial statements and reports of receipts and disbursements presents the financial position of the town on December 31, 1964, and an accurate record of funds handled in the year then ended.

GLENNIS J. WESTON,
RUTH A. GREENSLIT,
GLADYS M. BISSELL,

Auditors

REPORT OF THE WARREN VOLUNTEER FIRE DEPT. 1964

David Dean	\$ 270.00
Roy Long	13.63
Gas. Cons.	11.75
Lumber	20.04
Gas Stove	20.00
Items under \$10.00	82.23
Total	\$ 417.65

The above amount paid from money raised by the Volunteer Department.

We have an Article in the warning, asking that you put aside 10% of the Grand List in a Savings Account, for ten years. This money to be used for purchasing a new Fire Truck and enlarging the fire station if needed. In consideration of the rapid growth of the whole valley, we may find it necessary to expand the Department in less than ten years. We feel that this would be an intelligent way to save for this purpose.

We plan to keep the Ford Truck as long as it continues to give good service. Its convenience to us would more than offset its trade-in value.

Respectfully,

J. C. SNOW,

Fire Chief

TO: Town Clerks of Vermont

Listed below are the winners of the 1964 Town Report Contest for reports covering the year 1963. This year only three towns failed to submit their reports. The final scores include those published by the Auditor of Accounts earlier in the year.

Thank you for taking part in the contest. It is our belief that good town reports promote greater citizen interest in town government.

RUTH JONES,
Overseer

VERMONT DEPARTMENT OF SOCIAL WELFARE
Montpelier, Vermont

This thirtieth in the series of annual reports submitted to the people of Warren presents tabulations for the calendar year 1965. In the Department of Social Welfare's program of assistance to the aged, blind or disabled 30% of the costs of hospitals and physician services, as well as the excess over \$80.00 per month in Nursing Home care, are assessed against the town of settlement of the recipients of such care. Participation charges incurred by your community during the past year for each of these types of care were as follows:

Nursing Home Care	\$
Hospitalization Services	
Physician Services	10.80

Under similar settlement provisions town participation in the program of Aid to Families with Dependent Children is at the rate of one-eighth the assistance grants while costs incurred for the care of Committed Children are borne equally by the local and state agencies. Charges assessed against your community for the former amounted to \$56.91 and for the latter \$1,260.56 for the year just closed.

During 1965 assistance was granted to 3 residents in your community under the Aid to the Aged, Blind or Disabled program. Direct money payments to these persons were financed entirely out of state-federal funds. Among the other programs financed from these same sources were Services for the Blind, Adoption Services and Medical Aid for the Aged. While no town-by-town records are compiled for these categories, their benefits were available to all qualified residents.

Respectfully submitted,

JOHN J. WACKERMAN,
Commissioner of Social Welfare

VERMONT STATE DEPARTMENT OF HEALTH

Annual Town Report — 1965

This is a report to the residents of your town describing the health services which have been rendered during 1965 (July 1, 1964-June 30, 1965). These services are carefully planned so that maximum benefit may be gained from each tax dollar. For instance, one clinic may serve many towns if the number of patients is small. On the other hand, when a service is needed in town, we make every attempt to provide it.

I invite you to discuss this report with your friends and health officer and I would welcome any impressions which you care to forward to me.

The following is a list of some of the health services to the residents of Warren.

Attendance at well child clinics	66
Nutrition, dietary consultations to institutions, groups, individuals	—
Pediatric consultations for child health problems	—
Number of children given diagnostic service at hospitals	1
Number of children aided at handicapped children's clinics for speech and hearing, orthopedic, plastic, neurological, cardiac problems	5
Number of children financially aided with hospitalization	1
Number of children served by mental retardation clinics	—
People x-rayed for tuberculosis detection	5
Diphtheria, Tetanus, Whooping-cough immunizations	24
Polio immunizations (Salk injection or Sabin oral) at clinics	80
Number of water samples tested (private and public supplies)	23
Food and dairy products tested	—
Blood specimens (premarital, prenatal and other)	39

Other laboratory specimens	87
Sanitary inspections, consultations (food and lodging, camps)	149
Water, sewage disposal, public building and other inspections	36
People x-rayed for occupational disease	—
Hospital and nursing home inspections and consultations	—
Number served by tumor clinics	2
Public Health Nurse home visits	122
Number served by Public Health Nurse visits	53

Respectfully submitted,

R. B. AIKEN, M. D., M. P. H.

RUTH A. BROOKS,
Treasurer

To the Citizens of Warren:

I consider that your pupils are making good progress this year under the direction of a competent staff of teachers. This year we have added Physical Education, an expanded art program, and a remedial reading program to our schools. All of these things give the Warren children a much better and richer program than we have offered in years past.

This year we have 72 pupils in school compared to the 78 we had last year. Cost per pupil in Warren is \$346.24 compared to a state average of \$342.00.

We have 27 pupils attending high school at a total cost to the town of about \$15,000.00.

For the past five years we have had an operating surplus that has varied from \$2,357.63 in 1961 to over \$7,000.00 in 1965. This happy situation is brought about because of the rapidly increasing taxable wealth of the town as shown on the Grand List.

Budget Explanation

1. Under administration, we have budgeted less money because our share of the supervisory services will decline sharply in our new district.

2. Teacher Salaries — We plan to close the East Warren School but the figure for salaries will remain about the same because we have budgeted money for music, art, and physical education programs. We also hope to engage the services of dental hygienists and perhaps dentists.

3. Transportation — Transportation services for all of Warren's children in grades 7-12 will be paid for as part of the total tuition charge and are not reflected in this figure. We think that all of the East Warren children in grades 1-6 can also be transported to the village on the union school bus free of charge. We will need more money for transportation because several of our carriers at night will have to make two trips because our school and the Harwood School will not get out at the same time.

4. Fuel and Utilities are down with the closing of the East Warren School.

5. Tuition — This item has increased because we will have fifty children in grades 7-12 attending the Harwood Union School at a cost per pupil of \$650.00.

Plans For Next Year

1. We will be in the same supervisory union with Waterbury, Waitsfield and the other towns sending students to the Harwood Union School.

2. From the budget explanation, we also plan to close the East Warren School.

3. Also from the budget explanation, we plan to hire people to teach Art, Physical Education, and Music in our schools.

4. From what we know now, we think that the Harwood Union School will run from 8:30 to 3:00. We plan to run our schools in Warren from 8:15 to 2:30 with either 30 or 45 minutes out for lunch.

5. We recommend a tax rate of \$2.10 to run the schools for the 1966-67 school year. This figure represents an increase of \$.45 over last year.

For the School Board,

WALLACE A. MARTIN,
Supt. of Schools

VERMONT STATE DEPARTMENT OF HEALTH

Annual Town Report — 1966

This is a report to the residents of your town describing the health services which have been rendered during the state fiscal year July 1, 1965 through June 30, 1966. These services are carefully planned so that maximum benefit may be gained from each tax dollar. For instance, one clinic may serve many towns if the number of patients is small. On the other hand, when a service is needed in a town or city, we make every effort to provide it.

I invite you to discuss this report with your friends and health officer and I would welcome any impressions which you care to forward to me.

The following is a list of some of the health services to the residents of Warren:

Attendance at well child conference	84
Number of children given diagnostic services at hospitals	1
Number of children financially aided with hospitalization	1
Number of children aided at handicapped children's clinics for speech, hearing, orthopedic, plastic, neurological, or cardiac problems	6
Dental health education, number of children served in schools	48
People X-rayed for tuberculosis detection	4
Attendance at tumor clinics	3
Attendance at diabetes clinics	20
Diphtheria, Tetanus, Whooping-cough Immunizations	26
Polio Immunizations	57
Smallpox Immunizations	23
Number of water samples tested (private and public supplies)	21
Blood specimens (pre-marital, pre-natal, and other)	22
Other laboratory specimens	6

Sanitary inspections, consultations (food and lodging, camps) 143

Water, sewage disposal, public buildings and other inspections 21

Public Health Nurse home visits 181

Number served by Public Health Nurse visits 35

Respectfully submitted,
R. B. AIKEN, M. D., M. P. H.
Commissioner of Health

May 27, 1966

From: Theodore R. Whalen, Superintendent of Schools

To: School Board, Warren, Vermont

Your Union High School bill for 1966, based on a population percentage of 7% and a school budget of \$328,120 is as follows:

$$7\% \text{ of } \$328,120 = \$22,968.40$$

This is due and payable upon collection of taxes and we are so notifying you, pursuant to Title 16, Paragraph 641 of the Vermont State Statutes.

The Warren Elementary School opened with an enrollment of 54 in September; the present enrollment is 59 students. We have an excellent Pupil-teacher ratio of about 20-1 which allows our teachers to work more easily with small groups and to give them individual help.

We are now in the Washington West District which includes Warren, Fayston, Waitsfield, Moretown, Duxbury and Waterbury.

This year has seen the continuation of the physical education program, taught two mornings weekly by Mrs. Barbara Buckley. Included in this program are sports activities, gymnastics, and square dancing.

In co-operation with the Bundy Art gallery, students in grades three through six are able to take art once weekly. It is hoped that through Title I (Federal Funds) we will be able to have an art teacher come into the school once weekly for grades one and two.

Music, taught by Miss Pharilda Galloway, includes both vocal and instrumental lessons two mornings weekly. Instrumental lessons are given in the town hall at present.

The remedial reading program, begun last year, was discontinued as no teacher was available. If an elementary remedial reading instructor can be employed on a full-time basis, through a co-operative plan with the other schools of our district, it will be possible to have remedial reading services again.

The Wednesday afternoon ski program for students in grades three through six is being conducted at Sugarbush again this year. Students are dismissed at two in the afternoon to participate.

Our elementary school has a wealth of audio-visual aids which our teachers use to reinforce classroom teaching. Teachers have been able to show instructional sound movies rented from the University of Vermont film library through the use of a new projector.

Two areas which should be considered in the near future to further improve our program are better library facilities with instructional services, and a kindergarten program. Library services and skill might be provided through a mobile unit servicing several elementary schools. A kindergarten would do much to help children with their readiness skills so that they could achieve at a faster and more advanced rate in the primary grades.

The elementary schools through the state are being evaluated this year through a "Self-Study of Vermont Elementary Schools" being conducted by the State Department of Education in co-operation with all the schools. Information from the Warren Elementary School based on minimum standards for elementary schools in such areas as building facilities, curriculum, equipment, materials, staff, and administration has already been sent to the state department for data processing. When this information is processed

we will know where we stand in relation to other schools in the state and what we need to do to improve and meet these minimum requirements.

Thanks go to the people of the community and members of various organizations who have been so helpful in providing support for our elementary program. The teaching staff deserves thanks for their hard work and co-operation in providing for the educational needs of our pupils throughout the year.

Superintendent of Schools

VERMONT DEPARTMENT OF SOCIAL WELFARE
Montpelier, Vermont

This thirty-second in the series of annual reports submitted to the people of Warren presents tabulations for the calendar year 1967. You may note a reduction in some or all categories of charges assessed your community. This is due primarily to passage of the Welfare Act by the 1967 session of the Legislature and in particular by its elimination of town sharing in programs administered by the Department of Social Welfare. Charges assessed your community were for goods and services received by the recipients prior to July 1, 1967. On those provided after this date there was no local participation.

In the Department of Social Welfare's program of assistance to the aged, blind or disabled 30% of the costs of hospital and physician services, as well as the excess over \$80.00 per month in Nursing Home Care, were assessed against the town of settlement of the recipients of such care. Participation charges incurred by your community during the past year for each of these types of care were as follows:

Nursing Home Care	\$
Hospitalization Services	296.95
Physician Services	4.20

Under similar settlement provisions town participation in the program of Aid to Families with Dependent Children was at the rate of one-eighth the assistance grants while costs incurred for the care of Committed Children were borne equally by the local and state agencies. Charges assessed against your community for the former amounted to \$00.00 and for the latter \$443.58 for the year just closed.

During 1967 assistance was granted to 2 residents in your community under the Aid to the Aged, Blind or Disabled program. Direct money payments to these persons were financed entirely out of the state-federal funds. Among the other programs financed from these same sources were Services for the Blind, Adoption Services, and Medical Assistance. While no town-by-town records are compiled for these categories, their benefits were available to all qualifield residents.

Respectfully submitted,

JOHN J. WACKERMAN,
Commissioner of Social Welfare

VERMONT STATE DEPARTMENT OF HEALTH

Annual Town Report — 1967

This is a report to the residents of your town describing the health services which have been rendered during the state fiscal year July 1, 1966 through June 30, 1967. These services are carefully planned so that maximum benefit may be gained from each tax dollar. For instance, one clinic may serve many towns if the number of patients is small. On the other hand, when a service is needed in a town or city, we make every effort to provide it.

I invite you to discuss this report with your friends and health officer and I would welcome any impressions which you care to forward to me.

The following is a list of some of the health services to the residents of Warren:

Attendance at well child conferences	10
Pediatric consultations for child health problems	—
Number of children given diagnostic services at hospitals	—
Number of children financially aided with hospitalization	—
Number of children aided at handicapped children's clinics for speech, hearing, orthopedic, plastic, neurological, or cardiac problems	4
Dental health education: number of children served in schools	—
People X-rayed for tuberculosis detection	7
People X-rayed for occupational diseases	—
Attendance at tumor clinics	2
Attendance at diabetes clinics or physician screening for diabetes	4
Diphtheria, Tetanus, Whooping-cough immunizations	10
Polio Immunizations	—
Smallpox immunizations	1
Measles immunizations	—
Number of water samples tested (private and public supplies)	24
Food and dairy products tested	—
Blood specimens (pre-marital, pre-natal, and other)	25
Other laboratory specimens	12
Nutrition, dietary consultations to institutions, groups, and individuals	—

Sanitary inspections, consultations (food and lodging, camps)	175
Water, sewage disposal, public buildings and other inspections	20
Hospital, nursing home, and home health service inspections and consultations	—
Public Health Nurse visits	51
Number served by Public Health Nurse visits	10

Respectfully submitted,

R. B. AIKEN, M.D., M.P.H.,
Commissioner of Health

H. S. — \$52,580 approximate

A check of pupil population figures will show that there has been a decided increase in elementary enrollment during the past year.

In September of 1966 there were 54 students enrolled in grades one through six; in September of 1967 there were 72 which was an increase of 18. A good part of this increase in enrollment developed when last year's nine sixth graders went to Harwood and were replaced by 19 youngsters who entered the first grade.

We are now facing the problem: "What can we do to provide space and facilities to house these students and at the same time provide a good elementary education?"

As you can see from the above figures the most immediate problem facing us in the fall was in Mrs. McCuin's room which contained 32 students. The state recommended maximum for a combination of grades one and two in a single room is 20 students. Mrs. Bernice Healey has been working in Mrs. McCuin's room since September as a teacher aide, taking over many of the second grade teaching duties. This has helped solve some of the teaching problems, but lack of space has still persisted. Mrs. Healey, a graduate of Salem State Teachers' College, with ten years'

teaching experience, is being paid through a Title I federal program.

Parent-teacher conferences were conducted in November to take the place of report cards for the first term's progress report. Ninety-three per cent of the parents participated in these conferences; and informal written report was sent home to parents who were unable to attend the scheduled conferences. From the parent questionnaires, sent home afterwards, it was found that three fourths of the parents favored continuing conferences in one form or another.

We are now studying our district's kindergarten through grade twelve program in several curriculum areas. This is being done through cross-visitations and meetings of both high school and elementary teachers. We hope eventually to revise each curriculum area in line with current trends and provide a certain uniformity of preparation for all children of the district who enter Harwood Union High School.

Areas which we need to investigate in relation to unifying our own district elementary program and to comply with the new Vermont minimum standards for elementary schools now being developed are: art, elementary French, shared services in elementary guidance and counseling, remedial reading, and the development of an Instructional Materials Center (Library).

The Physical Education program, taught two mornings weekly by Mrs. Barbara Buckley, has been continued this year. Included in this program are sports, gymnastics, and dancing. There is a definite need for better facilities in the form of space and equipment in order to improve this program.

In cooperation with the Bundy Art Gallery, students in grades three through six are able to take art lessons each Wednesday afternoon after school. We also have had and are working on a program which will provide an art teacher for kindergarten through grade six one day each week.

The ski program conducted at Sugarbush allows students in grades three through six to be dismissed after 1:30 period each Friday.

The public school kindergarten has been in operation at the Town Hall since September. Much new equipment has been acquired for this program which helps children develop readiness for the first grade. Readiness activities include muscular development; adjustment for social, work, and

play habits; and reading and number readiness with emphasis on listening habits and visual discrimination. Many manipulative teaching aids are used at this level so that children can learn by doing.

A new playground slide and see-saws were purchased and set up during the past year.

Thanks go to the teachers, custodian, school board, citizens of the community, and members of the various organizations who have been so helpful in providing support for our elementary program. It is through your efforts that an improved education for our youngsters is provided.

For the School Board,

THEODORE R. WHALEN,
Superintendent of Schools

To the Tax Payers:

We appreciate your past cooperation, and now are asking for your help to set up card system for each building in town.

Indicating:

Hazard areas, bulk gas tanks, buried or not quickly observed, underground entrance, etc.

Location of Bulkheads, cellar doors, trap doors to utility rooms, furnace rooms or attics.

Type of wall, solid masonry, wood studded.

Also location of available water, ponds, brooks, etc., as well as the approximate distance — and — direction from buildings.

Some of you with new homes may have an extra set of blue prints, otherwise a sketch of your building with these things clearly marked will help us do a better job for you if you ever need us.

COVER PICTURE

The old Sargent Farm, now owned by Fred Mobus, was first owned by Moses Sargent about 1790. The brick house was built in 1809 by his son, Thomas.

Thomas' son, Roderick Sargent, the grandfather of the writer, was born in the house in 1839.

RUTH JONES,
Overseer

VERMONT DEPARTMENT OF SOCIAL WELFARE
Montpelier, Vermont

January 22, 1969

Report to the Town of Warren:

In previous years this department annually notified each town of the charges that had been assessed against their community for their local share of State operated welfare programs. These tabulations were for the purpose of assisting in the audit of town records and were usually included in the Town Reports as being informative and of interest to the local citizenry. The enactment by the General Assembly of the Social Welfare Act of 1967 eliminated sharing in State welfare costs at the local level and consequently, the basis for our report to the towns.

In lieu of this report on town sharing of State welfare program costs, we thought it would be appropriate to annually notify each town and city of the amounts spent and people aided in each locality under the various programs of the Vermont Department of Social Welfare. With this thought in mind, systems are being initiated to collect and tabulate welfare data on this basis. At this time, Programming to accomplish this type of reporting has not been fully implemented, but we wish to share with you as much data about welfare expenditures in your community as is available. Next year the data collection system should be complete.

Now we are able to report for the last **six months** of 1968 on amounts of money paid to money payment recipients in your town and monthly average number of recipients for the same period. This is as follows:

Program	Amount 1/2 year	Monthly Avg. Number of Recipients
Aid to the Aged	\$ 939.00	4
Aid to the Disabled	958.00	1
Aid to Needy Families with Children	\$1,026.00	4

The above figures do not include money payment recipients residing in nursing homes or mental hospitals as there does not appear to be a fair way of assigning a town of residence to these people.

In addition, medical vendor payments for the calendar

year 1968 totalled approximately \$9,440,000 (more than one-third of all department expenditures) ; payments in behalf of committed children totalled approximately \$1,085,000 for a monthly average of 1,440 children; and general assistance payment obligations assumed by the State for the three month period, October through December 1968, were approximately \$81,000. No doubt residents of your community were numbered among those who benefited by these expenditures.

Respectfully submitted,

JOHN J. WACKERMAN,
Commissioner of Social Welfare

VERMONT STATE DEPARTMENT OF HEALTH

Annual Town Report — 1968

This is a report to the residents of your town describing the health services which have been rendered during the state fiscal year July 1, 1967 through June 30, 1968. These services are carefully planned so that maximum benefit may be gained from each tax dollar. For instance, one clinic may serve many towns if the number of patients is small. On the other hand, when a service is needed in a town or city, we make every effort to provide it.

I invite you to discuss this report with your friends and health officer and I would welcome any impressions which you care to forward to me.

The following is a list of some of the health services to the residents of Warren:

Attendance at State Public Health nurse sponsored well-child conferences and Immunization Clinics	88
Number of children given pediatric consultations or hospital diagnostic services	—
Number of children served at the child development clinic	—
Number of children aided at handicapped children's clinics for speech, hearing, orthopedic, plastic, neurological, or cardiac problems	4
Dental health education: number of children served in schools	80

People X-rayed for tuberculosis detection	5
People X-rayed for occupational diseases	
Attendance at tumor clinics	2
Attendance at diabetes clinics or physician screening for diabetes	9
Diphtheria, Tetanus, Whooping-cough immunizations	59
Polio immunizations	31
Smallpox immunizations	31
Measles immunizations	11
Number of water samples tested (private and public sup- plies)	42
Blood specimens tested (pre-marital, pre-natal, and oth- er)	23
Other laboratory specimens	22
Sanitary inspections, consultations (food and lodging, camps)	182
Water, sewage disposal, public buildings and other inspec- tions	17
Medical Care Services: nutrition and dietary consulta- tions, inspections and consultations to hospitals, nursing homes, home for aged, and home health ser- vice agencies	—
Public Health Nurse visits	52

Respectfully submitted,

R. B. AIKEN, M.D., M.P.H.,
Commissioner of Health

REPORT OF 1968
WATERBURY HOME HEALTH AGENCY
8 Elm St. — Telephone 244-7312

This year was a busy year. The growth of this agency indicates the ever increasing demand for developing comprehensive Community Public Health Nursing Programs. The problem of expanding services to surrounding areas, changing patterns of financing and bookkeeping, record keeping, providing orientation have all challenged the administration of the Agency.

The past year we signed agreements with the Towns of Waitsfield and Warren to expand our services for Medicare patients. In November of this year we signed an agreement with Moretown to expand our services to all age groups. As the need arises in other areas we will expand. We are now covering the towns of Duxbury, Moretown, Waitsfield and Warren.

At present the staff stands at one part time director, one full time staff nurse, and three part time nurses. We offer the additional services of a physiotherapist and an Occupational therapist. We also have a part time secretary, book-keeper.

Total Nursing visits made during the year, 2066.

REPORT OF THE SCHOOL BOARD AND THE SUPERINTENDENT OF SCHOOLS

To the Citizens of Warren:

This report summarizes the year's progress at the elementary level, problems which exist and possible solutions to these problems.

Elementary Enrollment:

Grades	K	1	2	3	4	5	6	Total
Students	13	14	18	15	11	12	3	86

Secondary Enrollment:

Grades	7	8	9	10	11	12	Total
Students	12	8	15	5	7	7	54

Elementary Staff:

Tardy, Mrs. Estrid	Kind.	13	2-yr. Elem. Prof.	1969
McCuin, Mrs. Evelyn	1	14	3-yr. Elem. Prof.	1972
*Forest, Mrs. Margaret	2-3	22	Elem. Prof. Stand.	1969
Senor, Mrs. Arlene	3-4	22	3-yr. Elem. Prof.	1973
Farnham, Mrs. Maedean ..	5-6	15	Elem. Prof. Stand.	1972

*Mrs. Forest resigned effective January 31, 1969

Elementary schools opened in September 1968 with an enrollment of 90 students, at the present time we have 86. This compares with September enrollments of 72 in 1967, and 54 in 1966. There are 18 children who will be of kindergarten age next year, and only 3 scheduled to go to Harwood, which gives us a projected elementary enrollment of 101 for September of 1969.

Unforseen expenses were encountered this year in several areas of the budget. In addition to the extra amount needed to cover new teachers' salaries the following expenses were met:

Renovation of the East Warren School for use in September, cost \$4,298.89 for materials and \$3,466.25 for labor. Total cost of this project so far has been \$7,765.14.

The new school bus, a 54-passenger, 1967 model, GMC was purchased for \$5,510.00.

Installation of auxiliary electric heaters at the village school was done at a cost of \$366.00.

Because of increased enrollment and the retirement of Mrs. Edna Streit, in September, the Warren Village School opened with two new teachers. These new teachers were Mrs. Maedean Farnham of Rochester, Vermont, a 1964 graduate of Castleton State College, with four years of teaching experience at Bennington and Hancock, Vermont; and Mrs. Margaret Forest of Warren, Vermont, a 1958 graduate of Maryville College (St. Louis, Missouri) with six years of teaching experience in Missouri, Kentucky, and Pennsylvania. Mrs. Farnham replaced Mrs. Streit and Mrs. Forest taught grade two and a part of grade three. Mrs. Evelyn McCuin, who formerly taught both grades one and two, now teaches only grade one at the East Warren School.

In order to hire new teachers for this school year we found it advisable to bargain by means of a salary schedule. The salary schedule which we used was based on a \$5,400. base with annual increments based on years of teaching experience. This compared favorably with other salary schedules across the state as the average salary for beginning teachers in Vermont this year with \$5,623. Next year the average beginning teacher in Vermont will receive a salary of between \$5,800 and \$6,000.

For our four full-time teachers this year, 1968-69, the average salary is \$6,094.

The school board feels that our elementary teachers should be paid on a salary schedule comparable to that of other school districts in the area. Therefore the following salary schedule has been approved by the school board.

Level	Index	3-year	4-year	B.A.	M.A.
1	1.00	\$5,200	\$5,600	\$5,700	\$6,100
2	1.04	5,432	5,832	5,932	6,332
3	1.12	5,896	6,296	6,396	6,796
4	1.16	6,328	6,528	6,628	7,028
5	1.20	6,360	6,760	6,860	7,260
6	1.24	6,692	6,992	7,092	7,492
7	1.28	6,824	7,224	7,324	7,824
8	1.32	7,056	7,456	7,556	7,956

9	1.36	7,288	7,688	7,788	8,188
10	1.40	7,520	7,920	8,020	8,420

This salary schedule indicates that a beginning teacher with a B.A., or other four-year college degree training, would get a salary of \$5,700 the first year and advance a level on the salary schedule for each year of teaching experience attained. Teachers with lesser or greater training would be paid accordingly.

Last year we were faced with the problem of finding more space in which to house our elementary program. We have temporarily solved this problem by re-opening the East Warren School. At the present time the kindergarten and first grade are at East Warren, but due to State Fire Marshal's orders we may be forced to relocate the kindergarten before next September. The State Fire Marshal has ruled that no children below grade four be housed on the second floor of either school.

At the present time a local committee is studying our school building needs because they realize that our present situation does not provide adequate facilities for elementary education. Needs for adequate space are evident in our present buildings for storage, library facilities, physical education teacher work space, office space, and small group conference and teaching space. It is hoped that the findings and recommendations of this study group will be given serious consideration by all citizens of Warren.

Elementary minimum standards have been approved by the State Board of Education. One standard is that elementary schools provide a minimum of 30 sq. ft. of classroom working space per child. With our present facilities we can accommodate approximately 105 students under this requirement. A second minimum standard is that the town school district spend a minimum of \$10.00 per pupil, per year, on "learning resource material." We are presently meeting this minimum standard. A third standard is that we comply with all existing State Fire Marshal's orders by September, 1969. We will have to move our present kindergarten to do this. The fourth minimum standard requires us to do a local self-assessment of our elementary program and develop a "Local Design for Education." A committee to perform this function will be organized either on the local or on the district level this spring.

Parent-teacher conferences were conducted in early December with 90% of district parents participating. Parent's responses following these conferences indicated that they would like them continued. Hopefully, we will again

have them next year, but scheduled earlier in the school year — probably in late October.

Special teachers supplementing our elementary program are as follows:

Miss Pharilda Galloway is teaching vocal music as she has for the past two years.

Mr. David Hebert teaches instrumental music lessons once weekly. Mr. Hebert is a 1967 graduate of the University of Vermont School of Music, and at present has eleven students. These students will play in the district music festival at Harwood Union High School in May.

Mrs. Elizabeth Griffin, who received her preparation in Leeds University, Yorkshire, England, teaches elementary French in Grades three through six. This program, new this year, will assist children in adapting to the language program at Harwood Union High School as well as give the children a better understanding of our own language and other cultures. The program is entirely oral in the elementary grades.

Mrs. Diana Blakey is again providing art instruction once weekly at both schools. This program is provided by means of a federal Title I grant.

Mrs. Emogene Watts, a former second grade teacher at Waterbury Elementary School, is teaching remedial reading at the Warren Village School. Prior to Christmas vacation her salary was paid through a Title I federal grant.

Mrs. Patricia Heise, a certified speech therapist, works in our schools one day each week. Her program of corrective speech is provided for by Title I funds.

Mrs. Barbara Buckley teaches physical education twice weekly as in past years.

As in past years we wish to extend our thanks to you citizens and organizations who have helped by providing support for the elementary school program. It is only thru your cooperation that progress can be made towards providing a better education for our children.

Respectfully submitted,

1 — out of town

You will be asked to vote on new legislation, legalizing Fire Mutual Aid in Vermont, H. B. 300.

ARTICLE ??. To see if the town will authorize its Fire Department by its Chief, to enter into agreements with such other duly authorized Fire Departments, or any private and Volunteer Fire Department, as seem appropriate to provide mutual fire protection on a systematic basis.

Respectfully,

JOHN C. SNOW,

Fire Chief

MAD RIVER VALLEY PLANNING COMMISSION

As a result of the vote in the 1968 Town Meeting, Moretown joined Duxbury, Fayston, Waitsfield, Warren and Waterbury in the Mad River Valley Regional Planning Commission. With the contract between the Central Planning Office and the Commission approved by both State and Federal Government, the work of gathering the basic information about the region started in June. This has included the preparation and revision of regional, town and village maps, a report on physical characteristics including soils, flooding and topography, material on population and housing, economic base, the existing use of land and codes. Regional Committees on Natural Resources, Recreation, Education, Tourist Activities, Public Safety and Junked Cars have been formed and are in operation. Coordination meetings between Commission representatives and the Soil Conservation Service, State Police, State Highway Department, Department of Water Resources, Department of Forests and Parks and others have been held. Goals for the Region and how the Region and its components fit into plans for the State have been considered. There have been discussions with representatives of the neighboring Central Vermont Regional Planning Commission and the form and content of a questionnaire to learn the concerns and preferences of people in the regions and their towns has been developed. The next year's work will consist of completion of the basic inventory stage and the development of comprehensive plans for the region and its member towns.

Town Activities

An interim land control regulation is presently being considered. Anyone wishing to have a fire protection pond should contact your Planning Commission.

An engineering survey has been asked for water and sewage disposal in the village.

A junk car drive is under way. Contact Jesse Cota.

Your commission has updated the Town Development Map.

VERMONT DEPARTMENT OF SOCIAL WELFARE
Montpelier, Vermont

Report to the Town of Warren:

Last year this department initiated reporting to each town and city the amounts spent and people aided in each locality under the various programs of the Vermont Department of Social Welfare. This report replaced the previous annual notification to each town of the charges that had been assessed against their community for their share of State operated welfare programs. The enactment by the General Assembly of the Social Welfare Act of 1967 eliminated sharing in State welfare costs at the local level and consequently, the basis for this type of reporting to the towns.

This years report on amounts of money paid to money payment recipients in your town and monthly average number of recipients is for calendar year 1969 in contrast to the half year report made last year. In addition, we are able to report a full year of money spent for General Assistance and for the last six months of the year, the value of the bonus food stamps given to residents of your town and the monthly average number of participants. General Assistance is the program that was formerly operated by your Overseer of the Poor. Your town's tabulation is as follows:

Program	Amount	Monthly Average No. of Recipients
Aid to the Aged	\$ 1,233.00	3
Aid to the Blind		
Aid to the Disabled	1,746.00	1
Aid to needy families with children	3,433.00	7
General Assistance		
Bonus Food Stamps (6 months)	27.00	1

The above figures do not include money payment recipients residing in nursing homes or mental hospitals as there does not appear to be a fair way of assigning a town of residence to these people.

In addition, medical vendor payments for the calendar year 1969 totaled over \$11,000,000.00 (more than $\frac{1}{3}$ of all department expenditures) and payments in behalf of committed children totaled over \$1,000,000.00 for a monthly average of 1480 children. No doubt, residents of your community were numbered among those who benefited by these expenditures.

PAUL R. PHILBROOK,
Deputy Commissioner

VERMONT STATE DEPARTMENT OF HEALTH

ANNUAL TOWN REPORT, 1969

This is a report to the residents of your town describing the health services which have been rendered during the state fiscal year July 1, 1968, through June 30, 1969. These services are carefully planned so that maximum benefit may be gained from each tax dollar. For instance, one clinic may serve many towns if the number of patients is small. On the other hand, when a service is needed in a town or city, we make every effort to provide it.

I invite you to discuss this report with your friends and health officer and I would welcome any impressions which you care to forward to me.

The following is a list of some of the health services to the residents of Warren.

Attendance at State Public Health nurse sponsored well-child conferences and Immunization Clinics	58
Number of children aided at handicapped children's clinic for speech, hearing, orthopedic, plastic, neurological, or cardiac problems	3
People x-rayed for tuberculosis detection	4
Attendance at tumor clinics	1
Attendance at diabetes clinic or physician screening for diabetes	8
Diphtheria, Tetanus, Whooping-cough immunizations ..	31
Polio immunizations	24
Smallpox immunizations	17
Measles immunizations	9
Number of water samples tested (private & public supplies)	34
Blood specimens tested (pre-marital, pre-natal, and other)	34
Other laboratory specimens	12
Sanitary inspections, consultations (food & Lodging, Camps)	185
Water, sewage disposal, public buildings & other inspections	11

Medical Care Services: nutrition and dietary consultations, inspections and consultations to hospitals, nursing homes, homes for the aged, and home health service agencies	15
Public Health Nurse visits	75
Number served by Public Health Nurse visits	40

Respectfully submitted,

NATIONAL FOREST REPORT

Your National Forest

What about the National Forest? Did you know that National Forests were originally established to protect watersheds and provide a continuous timber supply? Later legislation by the U.S. Congress recognized the National Forest responsibilities in managing for public recreation, fish and wildlife, and grazing as well as the timber and water resources. The Vermont State Legislature enabled the Green Mountain National Forest to be established in 1932.

Today the need for clean water, public recreation (including hunting and fishing), and a continuous timber supply have greatly increased in Vermont.

The public lands of the Green Mountain National Forest in and near this town help satisfy these needs, while the 25% fund revenues dispersed to each town on a National Forest acreage basis helps pay the costs of town road and/or school programs.

With town needs and regional planning in mind, the selectmen can approve the sale or donation of selected tracts of land to the Forest Service by any owner. When acquired, these lands then come under the management of the Green Mountain National Forest to yield many forest benefits. They are protected from fire and from any development which could be damaging to the environment.

In the Town of Warren there are 3,269 acres of National Forest land. If you would like to have more information about your National Forest, please contact either the Forest Supervisor at Rutland or my office in Rochester.

The superintendent's expenses are not a true picture this year, as the first three months' expenses were paid for in December, 1968; and we had no superintendent from August 1st to November, and no assistant superintendent from September 1st to December 1st.

We had to borrow money in March in anticipation of tax money to be collected in July. The interest rate on the last two notes was quoted incorrectly, so we will be re-funded.

REPORT OF THE SCHOOL BOARD AND THE SUPERINTENDENT OF SCHOOLS

To the Citizens of Warren:

The following is a report of the progress, present status, and the problems of your school.

Elementary Enrollment:

Grades	K	1	2	3	4	5	6	Total
Students	14	14	9	14	11	10	12	84

Secondary Enrollment:

Grades	7	8	9	10	11	12	Total
Students	4	10	8	14	6	6	48

Elementary Staff:

Teacher	Enroll- ment		Certification	Expires
Tardy, Estrid	Kind.	14	2-year	1970
McCuin, Evelyn	1	14	3-year	1972
Riccardi, Pamela	2-3	15	Prof. Prob.	1970
Senor, Arlene	3-4	19	3-year	1973
Farnham, Maedean	5-6	22	Elm. Prof. Stan.	1972

The Warren Elementary School opened in September with a total enrollment of 84 youngsters in four classrooms and a 1½ day kindergarten. This is an average of slightly more than 17 students per classroom in grades 1-6. Unfortunately, the students are not evenly distributed as shown in the above chart.

The Town of Warren has taken the first steps to remedy their elementary school building problems by appointing a committee of citizens to work with the administration and faculty to provide a practical solution to our problem. The committee has now been working for several months and is preparing plans to be presented to the voters of Warren in the very near future. These plans will not only try to solve the classroom problem, but also the lack of related facilities such as a multi-purpose room, library, gym, health room, and project area, which are not now present in our schools.

Four teachers who served the community so well last year, are again teaching in Warren. Mrs. Estrid Tardy, kindergarten; Mrs. Evelyn McCuin, grade 1; Mrs. Arlene Senor, Principal and grades 3 & 4; Mrs. Maedean Farnham,

grades 5 & 6. Replacing Margaret Forest this year is Miss Pamela Riccardi, who is a graduate of the University of Kentucky, with previous teaching experience in Burlington, Massachusetts.

We, however, do have several new itinerant teachers working in our school on a district-wide basis. Mrs. Kathryn Steele, who attended East Carolina University, is now the vocal music teacher at Warren. She is introducing a new approach to music known as the Orff-Kodaly Method. This differs from other teaching approaches; the emphasis is placed on coordinating musical sound, listening, saying and body movement.

Because our instrumental program has not taken advantage of children's natural interest in performing, we have had a decreased interest on the student part. We will, therefore, provide all 5th and 6th grade students of the six towns with an opportunity to perform once a week in a band. It is anticipated that this band will hold a concert some time in the spring. It is also our intent to have an elementary chorus on a district basis.

Mrs. Edna Graham, who is a graduate of Albany State Teacher's College, began teaching French in Warren for the first time this year.

Mrs. Emogene Watts, a veteran reading teacher with an excellent background, is again teaching Remedial Reading. We have again noted considerable improvement in many of our children.

This year we have Mr. Donald Heise, who is a graduate of the State University of New York — College at Cortland, teaching Physical Education at Warren.

During the fall the Leadership Committee was formed. The Committee consists of all principals, teaching principals, and high school department heads in the supervisory union. The primary function of this committee is to try and coordinate the various programs being developed in the district so that children will enter Harwood Union with similar experiences.

Parent-Teacher Conferences were again conducted and were very successful. Of the forty-six families who have children in school, forty-one had parents come to the conferences. This represents 80% of the parents.

The following repairs have been made and are in the process of being made:

The roof was repaired at the Warren Village School

during the months of October and November. The fire alarm system is completed at Warren Village and is being completed at the East Warren School. Also, there is a fire escape covering being installed at the East Warren School at this time. It is going to be necessary to have more roof work done on both the Warren Village and East Warren Schools, before next fall. We also have added more lighting in the grade 3 and 4 room at the East Warren School.

We would like to take this opportunity to thank Donald Jamieson for acting in the dual role of Harwood Union Principal and Superintendent of the Washington West Supervisory Union. It was through his efforts that the schools were kept operating at an efficient level during the three months we were without a superintendent. We would also like to express our thanks to the people of Warren for your assistance and cooperation in maintaining an educational program.

Respectfully submitted,

KENNETH W. HOOD,
Superintendent of Schools

There has been numbers of FALSE ALARMS on the fire phones — when a mistake is made and a Volunteer Auxilliary answers "Warren Fire Department" we would appreciate the courtesy of a reply — "Sorry wrong number."

Someone might be in urgent need of help — give all the information possible. PLACE — NAME whether house barn or automobile.

With nearly one half of the VOLUNTEER MAN-POWER — and HALF of the weekly meetings held at the SUGAR BUSH STATION it would seem PRUDENT NOT to deprive the public in that area of the telephone connection to the Sugar Bush Station.

Will it be necessary for the Volunteer Fire Department to supply a communication system at their own expense?

THE FIRST MINUTES after a fire is discovered are of VITAL IMPORTANCE in getting help on their way.

CAN WE AFFORD THE RISK OF LIFE AND PROPERTY for the price of one telephone rental?????

WHY NOT PROTECT THE INVESTMENT ALREADY MADE????? Or better yet improve the capability for the future.

Many FIRE COMPANIES, have two way RADIO SYSTEMS, BUT someone has to get the message on the air. The VOLUNTEERS both FIREMEN AND THE AUXILLIARY will do all in their power promptly.

ANNUAL REPORT

Town Planning Commission

Our Town plan as being developed by the local planning commission and the firm of The Planners Collaboratives of Syracuse, N.Y. is nearly completed as this goes to print. A lot of time — thought — hard work and individual expense has been put into it. We feel we have produced a good, sound and workable plan for your consideration.

On Sept. 24, 1969 we presented an Interim Zoning Regulation for your consideration which was adopted and put in immediate operation. We are pleased to report it is working very well. As of January 19, 1970 a total of six

permits have been granted. All permits must be obtained from the Interim Zoning Administrator, Louis Frazier, telephone 496-3888.

The planning stage having been completed, now we must enter into the implementation and development stage to protect the investment already made.

The Mad River Regional Planning Commission has hired a full time Secretary and the money to pay her to March 1st has been obtained. We are asking the voters to vote us a total not to exceed \$900.00 to operate thru June 30, 1971. A sum not to exceed \$200.00 for local expenses for one year, and \$700.00 as our share of the matching money for the Secretary's salary and expenses. Also Duxbury, Fayston, Moretown and Waitsfield each \$700.00, and Waterbury \$3,500.00, the State matches all.

We are pleased to announce a very interested group of Harwood Union Students are working on several important projects with us. One is a very detailed study of a possible Commercial-Civic and Historical project in the center of town. We are developing a plan to completely relieve the parking and snow removal problems in the village.

The junk car project was very successful.

A study is under way to solve our dump problem.

A water and sewage study is under way.

This is naming just a few of the projects we are concerned with.

Respectfully submitted,

The Warren Town Planning Commission,

JESSE A. COTA, Chairman
LOUIS FRAZIER,
DAVID SELLERS,
PETER STREIT,
LENORD ROBINSQN,
JESSE A. COTA,

Commissioners

Also for consideration:

(a) That the covered bridge be declared an historic site and that it be maintained in good order by the town and that any major change in use or structure be by $\frac{2}{3}$ vote of the town.

(b) That the "Brook Road" from the dump road to the Rocchio road be declared a scenic highway and that utility poles shall not be allowed along the right of way of the road except by permit from the Planning Commission.

(c) That a Town Historian be elected for one year and that such historian be allowed one page, or portion thereof, in each years town report.

FAYSTON — WAITSFIELD — WARREN

Area Police Report

February 1, 1969 to December 31, 1969

	Fayston	Waitsfield	Warren	Total
Hours Charged	236 $\frac{1}{2}$	150 $\frac{1}{2}$	130	519
Costs	\$ 709.50	\$ 451.50	\$ 396.00	\$1,557.00
No. of Arrests	3	11	4	18
Fines Received	48.20	226.50	120.30	395.00

Three cases still pending ; one man sentenced, no fine.

In this report I will try to give a summary accounting of costs and accomplishments of the Washington County Sheriff's Department police activities under the contract for protection dated February 1, 1969. This report will contain figures up to and including December 31, 1969.

In showing the amount of fines recovered, we hope to make the point that if these arrests could be made under town ordinances, these funds would revert back to the town involved and thereby help to alleviate the cost to you for the area police protection. Since the basis of our contract is by the hour, you have paid only for the time involved by the officers and have made no expenditure for equipment or supplies.

Under this type of set-up, you should be well aware that costs will vary from year to year depending on the amount of crime and complaints in the area. I feel that the expenditure made this year has lowered the crime rate in your

area by some 60 to 70 percent. It has also increased the effectiveness of law enforcement of other departments due to a close cooperation with your area officers. Due to many hours of work in your area by all members of the Sheriff's Department at the local establishments their effectiveness and that of the area patrol has been greatly increased, especially in the spotting of potential crime. In return you have benefited by many hours of work performed by these officers, at no expense to you. The complete files from which the figures are derived are open to inspection at my office in Montpelier.

Respectfully submitted,

Mark Brown, Sheriff
